

EDUCATION

- A. If the development contains residential units, estimate the number of school-age children expected to reside in the development. Use class breakdowns appropriate to the area in which the development is located (specify on chart below):**

Table 1, School Age Children Assumptions (Revised) shows the school age children breakdown by facility for the 8,500 planned residential units in Restoration. The projected 1,771 students would occur over the 2010-2023 period.

Table 1
School Age Children Assumptions (Revised)

| | |
|-------------------------------|-------|
| Total Residential Units | 8,500 |
| Total School Age Population | 1,771 |
| Total Distributions by School | |
| Elementary School | 855 |
| Middle School | 403 |
| High School | 514 |

- B. Will school facilities or sites be dedicated or otherwise provided on the site?**

The Applicant has made provisions for up to 85 acres for an elementary and a high school site within Restoration to accommodate students from the projected residential development as well as adjacent developments servicing the project. As noted above, the Applicant has been in contact with the school district regarding the sites, size, location and to some degree site access.

- C. Attach a letter from the appropriate school board, acknowledging receipt of the estimated school-age population information in “A” above, and providing a statement of what capital improvement adjustments would be necessary to accommodate these students.**

A letter was received from the Volusia School District regarding the initial Restoration project. A revised letter will be generated for the adjusted development program, a copy of which will be provided to the City of Edgewater.
